

NKOSIYABO MDLADLA

Student

PROFILE

I am a final-year Beng Computer Engineering student at Cape Peninsula University of Technology. I have a strong foundation in software development and programming, with experience in Java, C, C++, JavaScript, HTML, and CSS, as well as MySQL database development. Having completed Software Development 1 and 2, Computer Graphics 2, and now currently completing Embedded Systems 3 and Industrial Computing Design 3, gaining exposure to web development, system-level programming and problem solving across software and hardware focused environments. I am passionate about coding and innovation, possess strong communication and mentoring skills, also work well in team-based projects. I am seeking internship or graduate opportunities where I can contribute while growing in software engineering, embedded systems, mobile and web development.

MySQL Database

EDUCATION

Cape Peninsula University of Technology

Feb 2023 – Nov 2026

Strong academic performance demonstrates consistency and discipline. Exposure to data structure, systems thinking and analytical problem solving. Coursework includes programming, databases and computer graphics.

Dingeka Technical High School

Jan 2020 – Nov 2022

Having maintained an overall average greater than 65% in my final high school exams. I have continued to excel academically. In my final year in high school, I was recognized for leadership as a class representative.

WORK EXPERIENCE

Residence Student Assistant (RSA)

April 2026 – Nov 2026

I Support residence operations and assist students with accommodation-related matters. I act as a liaison between students and management and improving communication flow. I also handle responsibilities requiring professionalism, confidentiality and problem solving. Also contribute to maintaining an organized and structured residence environment.

Academy of Digital Arts Intern/Student

Aug 2024 – Nov 2024

Advanced my time management skills as I was doing Adobe Illustrator and Photoshop while studying full time at CPUT.

Private Tutor

Feb 2024 – Present

I am tutoring or providing one-on-one academic support to students in problem-solving. Break down complex concepts into structured and understandable steps. I also assist students with projects, improving analytical thinking and logical reasoning. This helps strengthen my communication and mentoring abilities.

SKILLS

- Strong analytical and quantitative thinking.
- Java, JavaScript, HTML, CSS and C/C++
- MS Excel & Office Suite (data handling, reporting and documentation)
- Collaborative, Teamwork and mentoring experience
- Effective communication skills
